

Praise the Lord! In our room, we saw the Lord move in a mighty way tonight. A man with a completely paralysed arm was healed instantly, able to move his arm and lift it high. A woman suffering from mental ill health and unable to sing was set free completely and sang a beautiful song about the presence of God immediately. Another good night!

A gentleman from the Dominican Republic came into our prayer room. As his English was a little rusty, we were able to deliver simultaneous translation English-Spanish/Spanish-English as Spanish is my first language. He had been called into the healing ministry from a very young age, but false teaching 'taught him out of' the idea that God heals today. He dreamt of becoming a professional baseball player, but his dream was shattered following a couple of injuries that had left him with severe pain in his back, neck and knees, as well as reduced movement. He was seeking an encounter with the Holy Spirit as well as healing. We ministered to him about broken dreams and released him of trauma, pain and stolen joy. When it came time to pray for him, he called both of his daughters to lay their hands on him and we led each one into prayer for their dad. We proclaimed over him that he would become the pastor in his own house; that he would teach the truth about Jesus and His healing power to his family; that both of his daughters will follow Jesus all the days of their lives; and that they will be released into healing ministry, so that he would see his dream come true through his daughters, in the same way that King David saw his dream of building the temple come true through his son Solomon. The gentleman left certain to have been healed and was grateful for the reassurance he had felt through the team's ministry. He also felt the love of God. What a night!

We prayed for a lady who had problems with her uterus and ovaries. She is currently seeing a specialist. We commanded these organs to be healed in the name of Jesus and asked for a special touch from the Lord for her as she didn't feel anything at first. Then she said she had felt the presence of the Lord.

A couple from the USA trying for a baby for 7 years but no success due to Endometriosis. We commanded healing of the organs, shared scriptures. Prayed for the husband against Crohn's. The couple were very grateful for our prayers and said they felt the presence of the Lord.

A lady with physical but mostly emotional problems due to deep rejection. Gave her Romans 8:15-17. Came against enemy strongholds in the mind. Reminded her she was no longer a slave to fear and that Jesus never changes in His love.

Another lady - Low fertility, trying for a baby for 7 years. Gave Matt 9:27-30. Told her to reach out to Jesus in faith and receive complete restoration.

A lady from New England USA re endometriosis and also her husband who was sitting quietly. They were both praying to conceive but not having any breakthroughs. He also had an issue with mild Crohn's disease which he was on medication for. We prayed for both of them and they both got blasted by the Holy Spirit at the same time. I was amazed that all the teams we have and all the rooms God would send them in to our room specifically because my wife suffered with this years ago in fact it was a generational curse that came down to all the women of her family from South Africa.

Finally a lady from USA came on asking for prayer for her immune system, gut and problem with her spine, we discerned a spirit of rejection and all the other rejections, self rejection in particular - there were tears but she was receiving what God had for her. I felt quite strongly about this young lady out of all the people I prayed for over the last three nights I felt a strong anointing on her.
