

A lady from Europe who I had prayed with the previous night who needed healing so she could have a baby. This time she wanted prayer for a child they were going to foster who had a lot of emotional damage, they already had his brother. A powerful time of prayer, with prophetic ministry, it also turns out she leads the children's ministry in her church.

A lady from USA came for prayer for eye condition. The Spirit was really on her from the beginning and powerful prayer again.

A young woman from Florida, I had a word of knowledge, that is was an STD! I didn't need to share anything as she had come for that, as she had lived a permissive lifestyle, but been converted about 18 months. However she was now having bad problems with immune system. We again had a powerful time of prayer with declarations, and reassurance for her. She seemed really touched by the end.
